Project

Wezion - Landing Page

So This is a project which I have created for my friends Youtube channel providing them with a platform to serve the content. This was my first website being developed. It is a very basic website developed with HTML CSS and js and for animation js library is being used.

E-Commerce Website

This is the project which is in development since its my last year. So I am currently working on it. In this project I am developing this website using Django and Reactjs Full Stack Website with help of documentation and my teachers.

Achievements

Proficient in various platforms, languages, and embedded systems. Experienced with the latest cutting-edge development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.
